

### REMARKS

Entry of this amendment and favorable reconsideration of this application are respectfully requested.

It is respectfully submitted that the Sequence Listing previously submitted (in both computer readable form and in a paper copy) adequately identifies the 14 sequences contained in the subject application. The sequences shown in Figure 6A and 6B were, in fact, included in the previously submitted sequence listing. Figures 6A and 6B are amended herein to more clearly identify those sequences.

In view of the foregoing, this application is believed to be in condition for allowance. Such early and favorable action is earnestly solicited.

Respectfully submitted,

Peter DeLuca
